Re: Accessing Server1 Remotely

Overview

It is now possible to access Server1 from any site via Remote Desktop Connection. This can be done from any machine that is within the assigned IP address range for the respective site that you are attempting to connect from. Detailed instructions follow. This document is also available online at <http://www.bahcnm.org/mis>.

Instructions

Create an MIS support ticket with the subject as "Server1 Remote Desktop Access" at <http://bahcnm.org/mis> and request to be added to the respective user group.
